### **Coaching Approach**

Angelika King is a passionate coach and seminar leader. She loves to assist people in finding and reaching goals which are based on a connection of mind, heart and soul. Her broad experiences and wide variety of methods allow her to work on almost every issue and theme/subject. In a very inspiring way she teaches people to become “NLP-Practitioner”, to learn tools out of the big new field called “Energetic Psychology” or to learn and use in a respectful way the special “Timeline-Process developed by Angelika King”.
